## - IMPORTANT -

The ATF is actively trying to ban AR and AK pistols by wrapping them up under the NFA using a points system.

THERE WILL NOT BE A GRANDFATHER CLAUSE TO THIS RULING!

This will result in either registration under the NFA (\$200 Tax Stamp required per firearm), destruction of firearms in question, or "mandatory buybacks" of the firearms. Click [here](#) to read the proposed ruling.

...and here is a link to the actual "scorecard" they will be using to evaluate your AR/AK pistols:
