February is Black History Month!

Never forget that the first pieces of gun control legislation were signed into law by prior slave owners as a means to keep recently freed slaves from being able to own firearms. Gun Control has its roots in racist ideologies, and to this day continues to affect minorities more than any other group of Americans. We believe this so much, that we have a shirt to prove it. They are available in men's and women's cuts, get yours today!

2A RIGHTS ALERT!

Colorado lawmakers are currently working to draft legislation that will further impede Colorado Gun Owners' rights. They are drafting a bill to raise the minimum purchase age of "assault" weapons from 18 to 21 years old. Rep. Tom Sullivan, the lead author of the bill, is quoted saying "I have talked with the bill drafters about, well, why don't we just define it as this is what you can buy — a shotgun, a single-bolt action, and anything else you can't." This may not affect the majority of you reading this, but as with all gun control legislation, it is a stepping stone to banning these weapons from Colorado as a whole, like a few other states have done. Be on alert for this to advance!
